## **Subject Pronouns in Spanish**

The subject pronouns in Spanish are listed below:

SINGULAR PLURAL

уо	I	nosotros nosotras	we (masculine or mixed group) we (feminine)	
tú	you (familiar)	vosotros vosotras	you (familiar, masc. or mixed) you (familiar, feminine)	
usted	you (formal)	ustedes	you (familiar and formal)	
él	he, it	ellos	they (masculine or mixed)	
ella	she, it	ellas	they (feminine)	

Note: They only use the vosotros (as) form in the country of Spain. In this class, we will always use the ustedes form when talking about you in the plural. Ustedes is used as both the familiar and the formal in Latin America which is the way we will use it as well.

Practice exercises: Write the correct Spanish subject pronoun for each subject.
